

Hood's Sarsaparilla

Cures all humors, catarrh and rheumatism, relieves that tired feeling, restores the appetite, cures paleness, nervousness, builds up the whole system. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

SPAULDING ALUMNI LOST TO SCHOOL TEAM

Score in Last Evening's Basketball Game at the Church Street Gymnasium Was 32 to 20.

The Spaulding basketball team put a reef in the sails of the alumni team at the Church street gymnasium last evening by defeating them by a score of 32 to 20. The alumni team was made up of some of the best players of the school's teams in past years and though they put up a fast game and fought nobly they could not "come back" to their old form, and they found their eyes had grown dim when it came to shooting baskets. The alumni put their best work into the first period when they played a nip and tuck game with their lively opponents, but in the last two periods the strain began to tell on them and they weakened.

The game was planned to be comprised of two 15 and a 10 minutes period but after they had been playing 25 minutes in the first period it was discovered that no time keeper had been secured. Maiden, who was a wizard basket shooter of the Spaulding team which won the championship last year, led in the scoring for the alumni team with five baskets from the floor, but he showed nothing of his old time form and missed many easy chances. For the Spaulding team Carroll carried off the honors for basket shooting, making seven goals from the floor and many of them were excellent shots. Williams also made some good shots, tossing one through the hoop while lying on his back on the floor.

The game was roughly played at times and but little good team work was displayed by either side. Not a basket was thrown from the foul line, something that seldom happens in a basketball game, and both sides had many chances.

The line up: Spaulding, Carroll, F. Williams, I. G. Stewart, G. B. Grady, R. G. Halvorsen, O. G. Johnson, Baskets from the floor: Carroll 7, Stewart 5, O. G. Johnson 3, Johnson 3, Maiden 5, G. Stewart 4, referee, Richardson; time, two 15 and a 10 minute periods.

CALIFORNIA RACING DOOMED. Legislation to Stop Betting Will Be Completed On Monday.

Sacramento, Cal., Jan. 28.—The doom of the racetrack in California was sounded Thursday when the state Senate passed the anti-gambling bill. This measure will be adopted by the House and probably will be signed by Governor Johnson on Monday. Only fifteen days are allowed after the bill is signed before the law goes into effect. The measure is so stringent that it will kill racing at the Emeryville track, across the bay, for President Tom Williams frankly admits that racing without betting will not draw paying crowds.

FIFTY-NINE CASES OF DIPHTHERIA

In All, 151 Victims at Fitchburg—Enforcement of Quarantine Is a Problem.

Fitchburg, Mass., Jan. 28.—The diphtheria epidemic in Fitchburg is becoming more serious, and Thursday night a large batch of cases was reported to the board of health. Many of them were carrier cases, showing that the disease is spreading fast.

The total number of cases reported since January 1 up to 9 o'clock last night was 101, of which 50 were reported yesterday. Examination of cultures revealed 58 carrier cases. The other 43 reported is an actual case. Some of the carrier cases from the Cleghorn district are mild and were so reported.

QUINBY OUT TO BEAT BURNHAM. The Latter Will Have Contest on His Hands.

Concord, N. H., Jan. 28.—Former Governor Henry B. Quinby's announcement of his intention to contest the re-election of United States Senator Burnham at the end of the latter's present term in 1913 is already causing a tentative lining up of forces in this state. The former governor and his friends count upon the support of the men who have trained with the organization, as well as that of a considerable number of the progressive wing of the party.

Bladder Trouble Causes Terrible Pains.

After taking a trial bottle of Dr. Kilmer's Swamp-Root which you forwarded to me, I purchased some from a local drug store and after using three dollar bottles I can truthfully say that I was cured of all the terrible pains I had in my back, side and head, caused by bladder trouble. I had the worst kind of kidney trouble and suffered so that I could not even stay in bed with the pain. Dr. Kilmer's Swamp-Root made me feel just like a new person and I am glad to recommend it to anyone suffering as I did. Very truly yours, MISS MARY ARDNER, Defiance, Ohio. Sworn to before me and in my presence subscribed by the said Miss Mary Ardner, this 10th day of July, 1909. F. L. RAY, Notary Public. Prove What Swamp-Root Will Do For You Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing be sure and mention this paper. Regular 50-cent and \$1.00 size bottles for sale at all drug stores.

BALK AT RECIPROCITY

Reserve Shown by American Congressmen

ARE WAITING TO HEAR

From Their Constituents—Ratification This Session Thought Doubtful. General Support for Agreement by the Democrats.

Washington, Jan. 28.—The battery of newspaper men who hurled themselves against House and Senate yesterday in a despairing attempt to get interviews on the Canadian trade agreement, secured very few statements, but gained unanimously one impression, that the agreement stands only a remote chance of action at this session. The bold move of the president in negotiating so broad a treaty has dashed Congress. He has "called the bluff" of the professional tariff reductionists and they must now either fish or cut bait. The westerners like Bristow of Kansas are non-committal, but criticize the agreement sharply for admitting cattle free while retaining duties on packing house products. This undoubtedly will be a stock argument against the agreement. But those critics have not yet taken the ground that the free admission of grain necessarily will break prices or narrow their markets. New England senators are indicating their position by saying that the United States grants much but gets little in return, but they all hesitate to range themselves against the administration.

John Norris, chairman of the committee on paper of the American Newspaper Publishers' association, sends word that the pulp and paper provisions are wholly satisfactory to him, and states that if the agreement is ratified by both countries the price of news print paper should be reduced immediately. This statement bears out the belief of many members of Congress that the Canadians who conducted the negotiations felt reasonably certain that the provisions would remove their restrictions if the agreement were ratified and take advantage of its free trade provisions.

Members of Congress are more fearful of the position of the newspaper press in this controversy. They expect the newspapers to support the agreement warmly in their own interest, and, of course, to make trouble for statesmen who oppose it. As a matter of fact only a small section of the newspaper press ever has been rabid over free pulp and paper, and few have permitted their wishes in this respect to color their general views on the tariff.

The Senate no doubt will insist that the House act upon the agreement before it is taken up in the Senate. Some talk is being made about sending the resolution to the committee on foreign relations instead of finance, which is dominated by stand patters like Burrows and Smoot, but if the Senate waits for the House this hardly can be done. Senator Lodge is a member of both committees.

Democrats of both branches are delighted with the agreement. They stand ready to support it very generally and believe enough low tariff Republicans can be found in the House and possibly the Senate to put it through. In the upper branch, however, it will be practically impossible to get the resolution to a vote at this session. It would be of course a better chance next winter or even in an extra session, which will be necessary if the president insists upon action at once. The Democrats have seized upon the point that although the agreement may not actually reduce the cost of living at once, it will operate powerfully if not conclusively to check a further increase of prices.

SURPRISE IN ENGLAND. Caused by Broad Scope of the Reciprocity Agreement.

London, Jan. 28.—The scope of the reciprocity agreement between the United States and Canada came as a surprise to the British public. No one had expected so many changes to the free list of such important tariff reductions as the details of the proposed measure revealed. The tariff reform newspapers from the beginning had made light of the negotiations and predicted practical failure. The general opinion was that the United States was so strongly wedded to high protection that it would not offer Canada much.

UTILITIES BOARD FOR MAINE. Plan Similar to That of Wisconsin Favored by Democratic Leaders.

Augusta, Me., Jan. 28.—At a joint caucus Thursday night, the Democrats of the legislature declared in favor of a public utilities commission of five to supplant the present railroad commission and also to have supervision over all other service corporations, including regulation of rates. The bill is drawn on the lines of the Wisconsin law, with modifications in accordance with the Ohio bill. It will be several days before the bill will be presented to the legislature. It is said there will be more than one measure introduced, but the bill which is believed, will be eventually passed will be that which has the endorsement of the leaders of the party and is introduced as their measure. It is understood that when they have completed a bill that meets their approval it will be shown to shippers and travelers and also to the corporations interested.

TO CURE A COLD IN ONE DAY. Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

BREAKS UP A COLD AND CURES GRIPPE

The Most Severe Cold and Grippe Misery Will Be Relieved in Just a Few Hours.

You can surely end grippe and break up the most severe cold, either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken. It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges.

Take this harmless compound as directed, without interference with your usual duties and with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or had after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

ONE CONVICT CAUGHT. No Trace of Other Two, Who Escaped from Sing Sing Prison.

Ossining, N. Y., Jan. 28.—One of the trio of convict musicians who escaped from Sing Sing Thursday night by knocking the guards into insensibility with musical instruments, was captured late yesterday at Bedford Station, 14 miles north of the prison. The prisoner taken is Ralph Taylor, "the silk hat burglar," who was serving a 21-year term.

No trace of the other two, one of whom was a murderer, serving a life sentence, has been found. Taylor was captured by a policeman and made no resistance. He was exhausted after a night of dodging and stumbling along the Hudson and was still coatless. He walked for miles Thursday night, he said, and was chagrined to find he had been going in a circle.

He denied there was any premeditated plot to escape and swore he knew nothing of the whereabouts of the others. Warden Frost of Sing Sing went to Bedford Station and brought Taylor back.

NEVADA BARS CIGARETTES. State Senate Makes Sale or Gift to Man, Woman or Child Illegal.

Carson, Nev., Jan. 28.—The state Senate Thursday passed a bill making it unlawful to sell or give cigarettes or cigarette papers to any man, woman or child in the state of Nevada.

LIKE FINDING MONEY. D. F. Davis Offers Popular Medicine at Half Price.

D. F. Davis, the popular druggist, is making an offer that is just like finding money, for he is selling a regular 50-cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half price. In addition to this large discount, he agrees to return the money to any purchaser whom the specific does not cure.

LABOR CASE IN HIGH COURT

Final Stage of Great Boycott Action

THREE LABOR LEADERS

Sentenced for Contempt—Grew Out of Bucks Company Suit—Opposition to "We Don't Patronize" List of Labor Paper.

Washington, Jan. 28.—One of the most spectacular legal battles ever waged between capital and organized labor reached its final stages yesterday, when the supreme court of the United States took up for oral argument the famous litigation by the Bucks Stove & Range company of St. Louis, Mo., against the American Federation of Labor.

The contending forces started their fight to determine the legality of the "boycott." That was in the supreme court of the District of Columbia. But yesterday, when the contest was renewed before the supreme court of the United States, the main issue had been crowded out of the limelight by an incidental one. Now, the burning issue is whether the principal officials of the American Federation of Labor are to go to jail on charges of contempt of court.

Because they failed to obey the injunction issued by the district supreme court in the original case, Samuel Gompers, president of the federation, is under sentence to serve 12 months in jail; John Mitchell, vice president of the federation, to serve nine months; and Frank Morrison, its secretary, to serve six months.

Fighting for the American Federation of Labor and its officials are Alton B. Parker, former Democratic presidential candidate; Jackson H. Rabon, Frederick L. Siddons, William E. Richardson and John T. Walker. Opposed to them are the representatives of the Bucks Stove & Range company are Daniel Davenport and J. J. Darlington.

The Bucks Stove & Range company was selling stoves and ranges throughout the United States at the time the suit began. It was doing a business of \$1,250,000 a year. It complained that the American Federation of Labor and its members were conspiring to ruin its business by means of a boycott.

The opposition of the federation was alleged to be due to a strike of metal polishers in the shops of the company. Before the injunction of the original court had been passed on by the higher court, the Bucks Stove & Range company complained that President Gompers, Vice President Mitchell and Secretary Morrison had violated its provisions by commenting publicly on the effect of the injunction. They were brought into court and held to be in contempt. Now, it is argued in their behalf that the lower court has not issued a valid injunction and that they could not be punished therefore for disobeying it. That it was not a proper injunction is shown, it is argued, by the fact that the higher court modified it.

Mr. Cummins Objects to Exoneration of Senator Lorimer.

tary Morrison had violated its provisions by commenting publicly on the effect of the injunction. They were brought into court and held to be in contempt. Now, it is argued in their behalf that the lower court has not issued a valid injunction and that they could not be punished therefore for disobeying it. That it was not a proper injunction is shown, it is argued, by the fact that the higher court modified it.

Mr. Cummins Objects to Exoneration of Senator Lorimer.

Washington, Jan. 28.—His argument against the adoption of the committee resolution exonerating Senator Lorimer of Illinois from the charge of having procured his seat by corrupt means, was resumed in the Senate yesterday by Mr. Cummins of Iowa, who declared there were many circumstances tending to sustain the charges. He said it would have been impossible for the human mind to have fabricated such a story as that supplied to the Chicago Tribune by Representative White of the Illinois legislature without having it refuted by the facts.

This refutation, he said, had not resulted. On the contrary, many circumstances corroborative of that story had been collected by the committee. Mr. Cummins declared that there was not one single undisputed item of testimony that was not in harmony with the original White story.

President Alfred G. Smith of the New York and Cuba Steamship company yesterday testified before the ship subsidy investigating committee that he knew nothing of any lobbying or corruption in connection with congressional legislation. He said his company had taken no interest in such legislation in 10 years.

Paul G. Forman of the Uranium Steamship company took the stand and denied some of the statements made before the committee Thursday by Herman Winter, manager for Oelrichs & Co., against representatives of the North German Lloyd line. The investigation will be resumed Monday.

A NATIONAL DINNER To Be Given by University of Michigan Alumni in Eastern States.

New York, Jan. 28.—University of Michigan alumni of the eastern states will give a national dinner on February 4 at the hotel Astor, in honor of the university's alumni in the highest division of the national government. Michigan has a larger alumni delegation in Congress than any other university in the country. Twenty-seven Michigan alumni, four of whom are senators, are members of the present Congress. This number is almost twice as large as that of any other university in the country. For Harvard has sixteen of its alumni in Congress; Yale and university of Virginia fifteen each; university of Iowa, ten; university of Wisconsin and Cumberland university, nine each; Georgia, seven each; Washington and Lee university, six; university of Pennsylvania, Vanderbilt university, university of Missouri and Cincinnati law school five each. Princeton, Amherst, Trinity, university of South Carolina, Dartmouth, university of the South, university of Arkansas, Tulane university, Bowdoin, Albany law school and university of Texas four each. The alumni of the university of Michigan are so proud of this record that they will have the following delegation of Michigan men from Washington D. C., as their guests of honor at the national dinner: William B. Dwyer, justice of the United States supreme court, United States Senators Shively of Indiana, Warner of Missouri, Mcumber of North Dakota, Sutherland of Utah, and the following members of the House of Representatives: Needham of California, Taylor of Colorado, Cox of Indiana, Good of Iowa, Anthony of Kansas, Dealey, Townsend, Dickema, McLaughlin, Smith (S. W.) and Dadds of Michigan, Conroy of New York, Gardner of New Jersey, Johnson and Sharp of Ohio, Barclay, Cooper and Burke of Pennsylvania, Martin of South Dakota and Plumley of Vermont.

You—To-night—and Quick Money Sale

That is just the right combination for some bargain getting in men's clothes. The things you need right along—wearables of every description. Look, for instance, at the reductions on Suits and Overcoats.

Men's Suits	Men's Overcoats
Everybody will be interested in these splendid values in outer clothing for men, young men and boys.	Most of the winter is yet to come, and lucky is the man who has waited to take advantage of such price cuts as these:—
All Hart Schaffner & Marx and Morse-Made \$27.50 and \$30.00 Suits now \$21.50	One lot Short Length Overcoats, just the ticket for a working coat, were \$10.00 to \$15.00, now \$4.99

TRIED TO ROB BANK. But Burglars Were Frightened Away at Berlin, N. Y.

Berlin, N. Y., Jan. 27.—An attempt was made early yesterday to rob the Taconic Valley bank at this place. The occupants of the dwelling adjoining the institution were awakened by an explosion and lighted a lamp.

This evidently warned the burglars that the noise had aroused persons near at hand, and they left the bank and disappeared. The neighbors awakened did not investigate, and cashier Wells was not notified that the bank had been disturbed until 6:30 o'clock.

Then he went to the bank and found that the burglars had blown the foundation from the outer doors of the vault. Several tools were left in the bank by the operators.

The bank employees could not get into the vault yesterday morning to open the doors of the inner safe. A general alarm was sent to the police of the various cities and towns of the vicinity.

MINE RESCUE CARS. Uncle Sam Experimenting with Means to Stop Appalling Loss of Life.

The appalling loss of life in American coal mines the past year has moved the bureau of mines to take active steps in the preparation of adequate appliances for rescue work and the training of men in their use. That the number of deaths in American mines, both coal and metal, during the year 1909 should be about five out of every 1,000 employed, and that of European countries only about two out of every 1,000, has caused inquiry; and it has been found that this astounding difference is largely due to the fact that for some time past these European countries have maintained efficient rescue stations.

With the hope that this happy condition may be duplicated in our own country, the bureau of mines has recently equipped six cars with the latest apparatus for rescue work, including also first aid material, and has manned them with experienced miners trained to this work.

These rescue cars are stationed at the great coal mining centers, and will be sent out at a moment's notice to the scene of a disaster to co-operate with the state mining officials in rescuing entombed miners. Besides this emergency feature, the cars will visit all mining towns and camps of any importance within their allotted territory, giving free instruction to the men in the saving of life and the proper care of the injured.

A surgeon from the American Red Cross society and a mining engineer are

Hale's Honey

Of Horehound and Tar will check your Cough, Cold or Sore Throat. The most reliable remedy. It contains no opium nor anything injurious. Sold by druggists. Pike's Toothache Drops Cure in One Minute

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength. Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY. You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.
